EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Christopher Bernard on January 17, 2006.

The application has been amended as follows:

Claim 1, line 14, after the phrase "synchronize the NMS database with the", delete "interface" and insert --- internal configuration database---.

Claim 1, line 18, after the word "objects", delete "such that" and insert ---wherein the---.

Claim 3, line 25, after the word "objects", delete "such that", and insert ---wherein the---.

Claim 16, line 6, after the word "objects", delete "such that", and insert ---wherein the---.

REASONS FOR ALLOWANCE

2. The following is an examiner's statement of reasons for allowance: The prior art of record does not provide for, nor suggests providing for a network system using an internal configuration database supporting an active query feature in order to

Art Unit: 2143

synchronize the management database with the internal database and including utilizing flexible process identification numbers wherein restarting or upgrading the processes or devices is transparent to the other processes or devices. The name server used in the invention registers the names of the modular processes and allows high-level processes to register interests in particular objects, and to subscribe for information about the objects which the need to communicate. Updates are provided only when necessary, resulting in no wasted processing or resource consumption, and allow the system to be highly scalable. When a process is restarted or upgraded, it merely registers with the name server and the name server notifies the devices in which this process is to communicate with the assigned process identifiers. For these reasons, in conjunction with the other limitations of the independent claim, render this case in condition for allowance.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Joseph E. Avellino whose telephone number is (571) 272-3905. The examiner can normally be reached on Monday-Friday 7:00-4:00.
